

# FAPESP ON COLLABORATION WITH THE NETHERLANDS

Prof. CARLOS ALFREDO JOLY

# **FAPESP & NETHERLANDS**

Currently there are **55 ongoing co-financed projects** – 36 are Regular and 19 are Thematic

Furthermore there are **8 MSc/PhD ongoing scholarships**

**RESEARCH AREAS:** Agriculture, Architecture, Astrophysics, Biomedicine, Chemistry, Computer Science, Energy, Engineering, Geophysics, Health, Humanities, Mathematics, Pollution and Sports  
**Including 1 project in partnership with FAPESP's BIOEN**

**1 particular project caught my attention.....**

**The secret of playing football: Brazil X Holland**

BUT, considering the qualifying for the world cup in Russia it seems this one did not produced the expected results

# 2017 NWO-FAPESP joint Call for Proposals

**Summary:** The aim of this call is to strengthen research cooperation between researchers in the State of São Paulo, Brazil, and researchers in the Netherlands by funding joint research projects. The present call welcomes project submissions **related to the biobased economy in a broad sense.**

## **6 NEW PROJECTS APPROVED IN THIS CALL**

### **3 THEMATIC**

**2017/50211-9** Genetic and molecular basis of chlorophyll in seeds: a step forward to improve soybean adaptability to climate change

**2017/50249-6** Novel strategy for anaerobic production of polyhydroxyalkanoates (PHA)

**2017/50205-9** Monitoring integrated crop-livestock systems through remote sensing and precision agriculture for more sustainable production - towards low carbon agriculture

## **6 NEW PROJECTS APPROVED IN THIS CALL**

### **3 REGULAR**

**2017/50261-6** Mixed metal carbides for biomass upgrading (MICA4BIO)

**2017/50249-6** Using agricultural waste to combat plant pathogens  
environmental friendly ways to combat xanthomonas citri

**2017/50205-9** Understanding the molecular biology and ecology of plant virus vector relationships towards sustainable integrated virus management strategies

**I HOPE THAT THE 2018 NOW FAPESP JOINT CALL includes the following in its summary**

**Summary:** The aim of this call is to strengthen research cooperation between researchers in the State of São Paulo, Brazil, and researchers in the Netherlands by funding joint research projects. The present call welcomes project submissions **related to biodiversity and ecosystem services**

**Heel erg bedankt!**
