The PIPE–High–Tech Entrepreneurial Training

treinamento-pipe@fapesp.br

The **PIPE–High–Tech Entrepreneurial Training**, offered by FAPESP, aims to assist companies funded through FAPESP's **Innovative Research in Small Businesses** program (PIPE in the Portuguese acronym) to develop a robust business model. The goal is to promote sustainable commercial development of the innovative products and services originated from FAPESP PIPE's research projects, generating significant business results. The training methodology is based on Steve Blank's Customer Development and Osterwalder and Pigneur's Business Model Canvas applied to high-tech innovation, similarly to the I-Corps program of the US National Science Foundation.

The São Paulo Research Foundation, FAPESP, has been funding small business research since 1997. The PIPE program focuses on **Innovative Research in Small Businesses**, targeting from startups to medium companies with less than 250 employees. Similarly to the NSF SBIR (Small Business Innovation Research) program, FAPESP's PIPE is divided in two phases. Phase 1 supports proof-of-concept or feasibility assessments, with a duration of up to 9 months. Phase 2 supports the development of the research required to develop the process or product, with a duration of up to 24 months. More than 1,800 PIPE grants have been awarded and since 2013 FAPESP has been awarding approximately 4 grants per week, with a steady growth in the yearly number of awardees – 228 new projects were started in 2016, 43% higher than 2015 .

The PIPE–High–Tech Entrepreneurial Training selects 21 teams, based on the quality of their proposals and the benefits they could obtain from participating. Each team is composed of three members. Two of them are nominated by the startup: the Principal Investigator and the Entrepreneurial Lead person for the company. The third member, the Mentor, is assigned by FAPESP from a pool of highly experienced, successful high-tech executives in the State of São Paulo, Brazil.

The training is organized in 4 phases. In Phase 1, the companies prepare their initial business canvas. In Phase 2, the 21 teams will work at FAPESP with the instructors during three days and learn how to interview customers and incorporate their feedback into their businesses. In Phase 3, the teams will conduct dozens of customer interviews in a structured way, adapting their business model as they progress, and have online classes and videoconference sessions with FAPESP instructors. In Phase 4, the teams will meet again at FAPESP in a live session for their final oral presentations.

The training program is based on the Customer Discovery methodology, which is an iterative process of getting out of the office/lab, going to the market to interview potential customers, partners, and competitors, to understand their needs, problems, and difficulties. After each group of interviews, the team evaluates whether the new understanding of the customer needs validates or invalidates the components of its business model. When a team detects that its hypothesis is not valid, they modify the existing business model. This iterative process continues until the team achieves a match between the product/service being offered and the needs of the market. This correspondence is called Product x Market fit.

The program will not only help the 21 startups in enhancing their business capabilities, but also develop, within the State of São Paulo, the expertise on how to apply modern startup engineering methodologies for the development of prosperous high-tech companies.

The São Paulo Research Foundation

FAPESP is a public foundation funded by São Paulo taxpayers to promote the development of science and technology in the state, by supporting research projects in institutions of higher education and research, official or private, which are selected by a rigorous system of analysis based on the peer-review process.

São Paulo has a population of 45 million and generates 31% of Brazil's GNP. Under the state Constitution 1% of all state taxes are appropriated to fund FAPESP. The stability of the funding and the autonomy of the foundation allow for an efficient management of the resources that has had a sizable impact: while São Paulo has 22% of the Brazilian population and 36% of the scientists with a doctorate in the country, the state responds for 45% of the country's scientific articles published in international journals.

The effectiveness of research carried out in São Paulo is the combined result of several factors that include the quality of the state's universities and institutes, the productivity of its researchers, high rates of participation by private, São Paulo-based companies that function within the state's R&D outlays, São Paulo's outstanding infrastructure, and the existence of FAPESP, a well-designed state research-sponsoring agency governed, maintained by its directors with excellence and with autonomy over the past half century.

Within this context, in 2016 FAPESP applied 631 million in \$ purchasing power parity (PPP) in scholarships and grants.

In accordance with the Foundation's funding objectives, 39% of expenditure was earmarked for advancing knowledge, 8% was dedicated to supporting research infrastructure and 53% was allocated to supporting application-driven research.

FAPESP works in close contact with the scientific community: all proposals are peer reviewed with the help of panels composed of active researchers from the specific area. Many times scientists in São Paulo submit proposals for programs to the foundation which are carefully analyzed and, if deemed strong in academic terms, are shaped by the foundation into research programs that will constitute a set of related research projects in a given area.

Since FAPESP's mandate is to foster research and scientific and technological development in the state, ideas for programs that couple world class research with contributions that will impact social problems are welcome.

Innovative Research in Small Businesses

Aims and Objectives

FAPESP's Innovative Research in Small Businesses Program (PIPE), established in 1997, aims to support the development of innovative research projects carried out in small businesses, i.e., companies with up to 250 employees, in the State of São Paulo. Centered on significant scientific and technological problems that have a high potential for commercial or social return, the projects are carried out by researchers who have formal links to the small businesses or who are associated with them for the implementation of the project.

The FAPESP PIPE objectives are:

- To use technological innovation as an instrument to increase the competitiveness of small companies;
- To create conditions to enhance the research system's contribution to economic and social development;
- To foster an increase in private investment in technological research;
- To enable the collaboration of small businesses with academic researchers on innovation projects;
- To contribute for the establishment of a culture that values research activities within business environments, technological innovation within small companies, and the employment of researchers in the private sector.

An electronic engineer and a physicist, Brito Cruz is a professor at the Gleb Wataghin Physics Institute, of the State University of Campinas (Unicamp), where he was the rector from 2002 to 2005.

He graduated in electronic engineering at the Aeronautics Technology Institute of (ITA in the Portuguese acronym). He took a master's degree and a doctorate at Unicamp's Gleb Wataghin Physics Institute. He has been a professor at the Unicamp's Physics Institute since 1982. Presently is a full professor at the Quantum Electronics Department.

Bruto Cruz was a visiting researcher at the Quantum Optics Laboratory at the Università di Roma, at the Femtosecond Research Laboratory at the Université Pierre et Marie Curie, and a resident researcher at the AT&T's Bell Laboratories, in Holmdel, New Jersey. At Unicamp he was the Director of Unicamp's Physics Institute from 1991 to 1994 and from 1998 to 2002; Pro-rector for Research from 1994 to 1998, and Rector of the university from 2002 to 2005. He was the the President of FAPESP from 1996 to 2002.

Bruto Cruz is a member of the Brazilian Academy of Sciences and a Fellow of the American Association for the Advancement of Science. He received the Ordre des Palmes Academiques de France, the Order of the Scientific Merit from the Federative Republic of Brazil and the Order of the British Empire, Honorary (OBE) in 2015.

Adjunct Panel - Research for Innovation

São Paulo Research Foundation – FAPESP

Rua Pio XI, 1500 – Alto da Lapa – São Paulo – CEP 05468-901

fgrynszpan@fapesp.br

www.fapesp.br/en

Received the degree of Electronic Engineer from the Universidade Federal do Rio de Janeiro(1966), M.Sc. in Electrical Engineering from the Coordenação dos Programas de Pós-Graduação de Engenharia-COPPE/UFRJ,(1967) and Ph.D in Biomedical Engineering from the University of Pennsylvania,(1971). Grynszpan was the head of the Department of Biomedical Engineering (1973-1976) and became Full Professor of COPPE/UFRJ(1975).

He became the head of COPPETEC, in charge of the University projects to Industry and Government (1976-1985) and the head of the Technology Innovation Center (1985-1986), to commercialize the University research results. In 1987, he founded the Technological Park of Rio de Janeiro, with 73 companies specialized in IT and Telecom. He, then, became the President of Riotech, the company that managed the research activities of the park. He was elected as Vice President of The International Association of Science Parks (1986 to 1989).

Grynszpan founded and headed the Brazilian Association of Biomedical Engineering (1971), was a member of the Conselho Técnico Científico of CAPES/MEC (1975) and Member of the Board of Conselho Nacional de Desenvolvimento Científico e Tecnológico (CNPq) from 1998 to 2002.

In 1989, he became the President of Motorola in Brazil, where he stayed for ten years and was responsible for bringing and installing Motorola's manufacturing facilities in Jaguariuna, São Paulo. In this plant, Motorola manufactured all cellular phones, radios and pagers sold in Brazil and exported to Latin America.

He became Vice President of Abinee – the Brazilian Electronic Industrial Association, until 2001, Member of the Board of Trustees of FIA – Fundação Instituto de Administração,(2000-2006) and Director of Anpei, the Brazilian Association of Innovative Enterprises, until 2008.

He is a Visiting Professor of the MBA Program of the Fundação Instituto de Administração, Director of the Technology Department of the Centro das Indústrias de São Paulo (CIESP), an organization that supports 8,500 industries in the state of São Paulo, and Member of CONIC – the Council of Innovation and Competitiveness of FIESP – the Federation of Industries of the State of São Paulo.

Grynszpan works as business consultant, specialized in innovation, commercialization of University research and entrepreneurship in Brazil and in the international market. He is now working as a consultant to the University of Virginia.

Bachelor's degree in Telecommunications Engineering (1970) and Master's degree in Electrical Engineering (1972) from Pontifical Catholic University of Rio de Janeiro. Graduated from Corporative Governance Brazilian Institute as Administrative Counselor (2009).

Served as a college professor: Former President (1990-1994) and currently Emeritus Member of Telecommunications Brazilian Society.

Worked at CPqD (Telecommunications R&D Center), since its creation (1976), in several areas: digital transmission, optical communication, microelectronics, technological and strategic planning.

TELEBRÁS R&D Director (1995-1998), CPqD's President (1998-2015) and CEO of CPqD Technologies&Systems Inc. (2000-2015). During his mandate CPqD created technology based startups with manifold business model in several areas: next generation network, optical communication systems, telecommunications clearing services, radio communication systems, optical sensors, fraud detection and prevention services, integrated photonics devices.

Has been President of the Administrative Board of Telesc, Teleshahia, Padtec, Trópico, Sistel, member of the Administrative Board of Telergipe, Algar, Cleartech, Telebrasil, member of Fórum Campinas Foundation Board of Trustees and Director at Telebrasil.

Presently is Research for Innovation Area Coordination at FAPESP, member of TELEBRÁS Administrative Board, startup Mentor; member of Fiesp Competitivity and Innovation Superior Council and Director at Fiesp Telecommunications Division. Co-founder of Brazil iCorps Institute.

Course Syllabus

Course Dates

Pre-kickoff meeting	October 17
Kickoff workshop	October 23-25
Online classes	October 30, November 6, 13, 21 and 27
Closing workshop	December 7 and 8

Course Expectations

Each team member should commit to attending every planned session of the program. Each team must have two members that can commit to class time plus approximately 15-20 additional hours per week, for the full seven weeks of the program, on customer discovery and exercises outside of class. Additional team members must commit to 6-8 hours a week.

Course Description

Customer Discovery is an iterative process of physically getting out of the building to interview potential customers and stakeholders to understand their problems and pain points in the market and in society. These interviews, or experiments, lead to real-world learnings and insights that validate or invalidate key components of the business model, often leading to pivots.

This course will provide teams with real-world, hands-on learning experience with customer discovery and successfully transferring knowledge into products and processes that benefit society. The entire team will engage with industry. You and your team will spend your time talking to and learning from customers, partners and competitors, and learning how to deal with the chaos and uncertainty of commercializing innovations and creating ventures.

This course is about getting out of the building. You will be spending a significant amount of time outside the building, talking to customers and testing your hypotheses about what they want in products and services. We will spend our limited class time on what you learned from talking to customers, not what you already knew coming into the course. Teams should be striving for 15 interviews per week, for a total of 100 interviews by the end of the course.

Class Culture

We have limited time and we push, challenge, and question you in the hope you will quickly learn. We will be direct, open, and tough – just like the real world. We hope you can recognize that these comments aren't personal, but part of the process. We also expect you to question us, challenge our point of view if you disagree, and engage in a real dialog with the teaching team. This approach may seem harsh or abrupt, but it is all part of our wanting you to learn to challenge yourselves quickly and objectively, and to appreciate that as entrepreneurs, you need to learn and evolve faster than you ever imagined possible.

Course Syllabus

Additional Resources

1) These short videos from Steve Blank provide helpful tips and examples for preparing for your customer interviews.

<https://vimeo.com/groups/204136/videos>

Pre-Planning Pt. 1	(4'55)
Interviews Pt. 1	(5'40)
Interviews Pt. 2	(3'49)
Asking the Right Question	(2'37)
Assuming you know what the customer wants	(1'56)
Understanding the Problem (the right way)	(3'22)
Customers Lie	(2'37)
The Distracted Customer	(3'12)
Engaging the Customer	(3'37)
Customer Empathy	(2'25)
The User, the Buyer & the Saboteur	(2'24)
Death by Demo 1	(2'18)
Death by Demo 2	(1'45)

2) For a more detailed explanation of Customer Development and the Lean Startup, here are some short videos of Steve Blank from the Kaufmann Founders School.

- ✓ www.entrepreneurship.org/Founders-School/The-Lean-Approach/Minimum-Viable-Product.aspx

3) All team members should purchase the textbooks outlined on the following page. The Osterwalder books have free e-version previews, and the Constable book has a full free e-version.

Value Proposition and Design

Alexander Osterwalder, Yves Pigneur, Greg Pernarda & Alan Smith
A free download of the first chapter of the book is available at <https://strategyzer.com/books/value-proposition-design>

Talking to Humans

Giff Constable
A free download of the book is available at www.talkingtohumans.com

Business Model Generation

Alexander Osterwalder & Yves Pigneur
A free download of the first chapter of the book is available at <http://businessmodelgeneration.com/book>

The Startup Owner's Manual

Steve Blank & Bob Dorf

Course Syllabus

Required Pre-Kickoff Assignments

Register for the free Udacity online course – How to Build a Startup (www.udacity.com/course/ep245) and watch the following lectures:

- Lesson 2: What we Now Know
- Lesson 3: Business Models
- Lesson 4: Customer Development
- Lesson 5: Value Proposition
- Lesson 6: Customer Segments

Highly Suggested Pre-Kickoff Assignments

The following assignments augment the required assignments, and should be used to provide a greater understanding of the material. At a minimum, we recommend that you scan these readings.

- **Business Model Generation** – pages 14-51
- **The Startup Owner's Manual** – pages 195-199
- **“12 Tips for Early Customer Development Interviews”** by Giff Constable:
(<http://giffconstable.com/2010/07/12-tips-for-early-customer-development-interviews>)

Required Deliverables for the Kickoff Workshop

1. A two-slide presentation. You *may* be called upon to present to the whole class and will *definitely* present to a group of peers and instructors in a breakout session. See the template provided on the following page.
2. Ten or more customer/industry contacts that you hope to interview on Day 2 of the Kickoff Workshop (August 08)

Course Syllabus

Presentation Template for the Kickoff Workshop

Slide 1: Title Slide

- Team Name
- University or company logo
- Product or technology picture & description (1 sentence)
- Pictures & names of your team members

Slide 2: Populated Business Model Canvas

Download template from: www.businessmodelgeneration.com/downloads/business_model_canvas_poster.pdf

Use the questions in the image below to guide your answers – focus on Customer Segments & Value Propositions

Key Partners 6 Who are your key partners? Who are your key suppliers? What are you <i>getting</i> from them...and <i>giving</i> to them?	Key Activities 7 What key activities do you require? Manufacturing? Software development? Personal concierge service? Etc.	Value Propositions 1 What customer <i>problems</i> are you helping to solve? What customer <i>needs</i> are you satisfying?	Customer Relationships 4 How will you <i>get, keep and grow</i> customers?	Customer Segments 2 Who are your most important customers? What are their <i>archetypes</i> ? What job do they want you to get done for them?
	Key Resources 8 What key resources do you require? Financial? Physical? Intellectual property? Human resources?	What are key features of your product/service that match customer problems/needs?	Channels 3 Through which channels (sales, distribution, support) do you customers <i>want</i> to be reached?	
Cost Structure What are most important costs inherent in your business model? What is mix of fixed and variable costs?	9	Revenue Streams How will you make money? What is revenue model? What are pricing tactics?	5	

Kickoff Workshop: Schedule at-a-glance (All times are GMT-3)

Date	Time	Topic	Location
Tuesday, October, 17 FAPESP	2:00 pm - 4:00 pm	Kickoff meeting with all teams to review requirements, logistics, and to connect mentors to teams	Auditorium
Monday, October, 23 APAS Rua Pio XI, 1.200	8:00 am - 8:30 am	Registration	Lobby
	8:30 am - 9:00 am	Welcome & Introduction	
	9:00 am - 10:30 am	Lecture #1: Using Customer Discovery to Build a Business Model, Customers & Value Propositions	Japan Room
	10:30 am - 11:00 am	Coffee Break	Lobby
	11:00 am - 1:00 pm	Team Introductions (21 teams: 3 min presentations/2 min comments)	Japan Room
	1:00 pm - 2:00 pm	Lunch	Lobby
	2:00 pm - 2:15 pm	Welcome & Introduction by FAPESP	
	2:15 pm - 3:00 pm	Lecture #2: Best Practices for Customer Discovery Interviews	
	3:00 pm - 4:00 pm	Office Hours	Japan Room
	4:00 pm - 4:15 pm	LPC Training	Lobby
4:15 pm - 4:45 pm	Mentor/PI/EL Workshops	Japan Room	
Tuesday, October, 24 APAS	All Day	Customer Interviews – in person at customer location	Sao Paulo & surrounding area
	8:00 am - 9:30 am	Office Hours (20 min sessions – teams will choose one slot based on their interview schedules)	Lapa Room
	4:30 pm - 6:00 pm		
Wednesday, October, 25 APAS	8:00 am - 8:30 am	Welcome Back, Q&A, Discussion	Japan Room
	8:30 am - 9:30 am	Lecture #3: Channels	Japan Room
	9:30 am - 10:30 am	Team Presentations (3 teams each in 2 rooms: 15 minute presentations/comments)	Breakout Rooms
	10:30 am - 11:00 am	Coffee Break	Lobby
	11:00 am - 12:00 pm	Team Presentations (3 teams each in 2 rooms: 15 minute presentations/comments)	Breakout Rooms
	12:00 pm - 1:00 pm	Lunch	Lobby
	1:00 pm - 2:30 pm	Team Presentations (5 teams each in 2 rooms: 15 minute presentations/comments)	Breakout Rooms
	2:30 pm - 3:00 pm	WebEx Training	Japan Room
	3:00 pm - 4:30 pm	Optional Office Hours	Breakout Rooms

Online Classes: Assignments

Required Assignments

You should watch all of the videos in the “*How to Build a Startup*” course (www.udacity.com/course/ep245). You can watch these at your own pace, but must have completed by the dates shown below.

By October and November

- Lesson 7: Channels
- Lesson 8: Customer Relationships
- Lesson 9: Revenue Models
- Lesson 10: Partners
- Lesson 11: Resources, Activities, and Costs

Additional Assignments

The teaching team may assign additional short readings or tasks throughout the course as deemed necessary based on the progress of teams.

Online Classes: Schedule at-a-glance (All times are GMT-3)

Date	Time	Topic
Monday, October, 30	1:30 pm - 2:00 pm 2:00 pm - 4:00 pm 4:00 pm - 5:00 pm	Test WebEx Team Presentations Teams present their business model canvas in three concurrent tracks. Each team is allotted 12 minutes total to include 10 minutes for presentations and 2 minutes for teaching team comments. Lecture #4: Problem Solution Fit Value Proposition Canvas: Customer Profile & Value Map, Customer Pains/Gains
Monday, November, 6	1:30 pm - 2:00 pm 2:00 pm - 4:00 pm 4:00 pm - 5:00 pm	Test WebEx Team Presentations Teams present their business model canvas in three concurrent tracks. Each team is allotted 12 minutes total to include 10 minutes for presentations and 2 minutes for teaching team comments. Lecture #5: Customer Relationships & Revenue Models
Monday, November, 13	1:30 pm - 2:00 pm 2:00 pm - 4:00 pm 4:00 pm - 5:00 pm	Test WebEx Team Presentations Teams present their business model canvas in three concurrent tracks. Each team is allotted 12 minutes total to include 10 minutes for presentations and 2 minutes for teaching team comments. Lecture #6: Key Partners
Tuesday, November, 21	1:30 pm - 2:00 pm 2:00 pm - 4:00 pm 4:00 pm - 5:00 pm	Test WebEx Team Presentations Teams present their business model canvas in three concurrent tracks. Each team is allotted 12 minutes total to include 10 minutes for presentations and 2 minutes for teaching team comments. Lecture #7: Business Model Fit Resources, Activities and Costs: how to build and validate the rest of your business model
Monday, November, 27	1:30 pm - 2:00 pm 2:00 pm - 4:00 pm 4:00 pm - 5:00 pm	Test WebEx Team Presentations Teams present their business model canvas in three concurrent tracks. Each team is allotted 12 minutes total to include 10 minutes for presentations and 2 minutes for teaching team comments. Lecture #8: Lessons Learned Presentations & Story Videos Overview and directions for the final course deliverables

Lessons Learned Workshop: Schedule at-a-glance (All times are GMT-3)

Date	Time	Topic	Location
Thursday, December, 7 FAPESP	8:30 am - 9:00 am	Welcome Back	Auditorium
	9:00 am - 10:30 am	Review Videos & Draft Presentations	Breakout Rooms
	10:30 am - 11:00 am	Coffee Break	Lobby
	11:00 am - 1:00 pm	Review Videos & Draft Presentations	Breakout Rooms
	1:00 pm - 2:00 pm	Lunch	Lobby
	2:00 pm - 4:30 pm	Office hours	
Friday, December, 8 FAPESP	8:00 am - 8:30 am	Registration	Lobby
	8:30 am - 9:00 am	FAPESP Introduction of Final Presentations	Auditorium
